Additional cover you and
your clients can count on

Why Umbrella Benefits?

Umbrella Benefits gives your clients additional cover and access to services that are ready to help them with the unexpected. Just like carrying a brolly in case of rain. And because we know everyone's lives and needs are different, personalisation is key to the package.

Practical and emotional support is included as standard with three services that focus on physical and mental health and later life care. Plus, there's an optional benefit that can be purchased with a policy for added financial security and peace of mind.
