

Introducing our partnership with Perci Health

This month we're delighted to announce our brand-new partnership with Perci Health, the UK's first virtual cancer survivorship clinic.

[Perci Health](#) provides virtual, personalised cancer care designed to achieve the best possible outcomes for employees.

The service is available to employees covered by our group income protection, who have been unable to work for a prolonged period having gone through, or who are currently, receiving treatment for cancer. The support is designed to help employees, where appropriate, return to work successfully.

This is a market-first solution that provides specialist clinical and vocational rehabilitation through Perci Health's virtual clinics. It provides access to a multidisciplinary team of high-quality cancer experts from over 20 different specialisms, including: Cancer nurse specialists, dietitians, physiotherapists, psychologists, occupational therapists, menopause specialists/therapists, genetic counsellors, and clinical exercise coaches. All care is provided through their virtual clinics and is focused on the physical, psychological and practical effects of cancer.

If you'd like to find out more about our new partnership, click on the links contained within this one pager. Alternatively, please don't hesitate to reach out to myself for more information.

In the meantime, have a great rest of your day and I will speak to you soon.
